

HSA Investments Quickstart Guide

Once your HSA reaches the required minimum balance, you can begin to build wealth and save for retirement by investing your funds, just like a 401(k). But unlike a 401(k), you never pay taxes on earnings or withdrawals for qualified medical expenses! HSA contributions offer greater tax savings than 401(k) contributions and give you the potential to save at a faster rate.

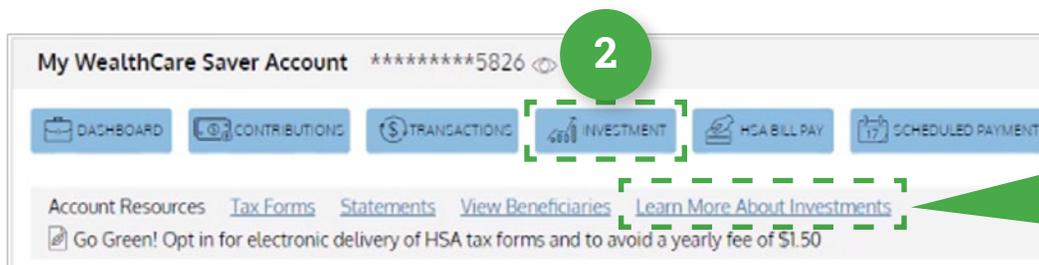

We make investing your HSA funds easy. You'll enjoy:

- Easy access to manage your HSA cash account and your investments from the same portal
- Three investment models to choose from: Managed, Self-Directed, or Brokerage
- Real-time account opening and trading
- Fractional trading of desired exchange-traded funds (ETFs) and stocks

Here is how to get started:

1. Log in to the American Benefits Group [HSA portal].
2. Expand the menu and click 'investments' or navigate to your HSA account summary and click on the 'investment' button.
3. Click on the 'start investing' button.
4. Accept the investment account terms and conditions.
5. Choose your preferred investment method.
6. Based on your preferred investment selection, you will be guided through a series of easy steps to either review or self-select funds, enter your investment amount(s) and begin investing.

TIP: Click on 'learn more about investments' to access a full user guide and a library of additional tools & resources designed to help you on your investment journey.
